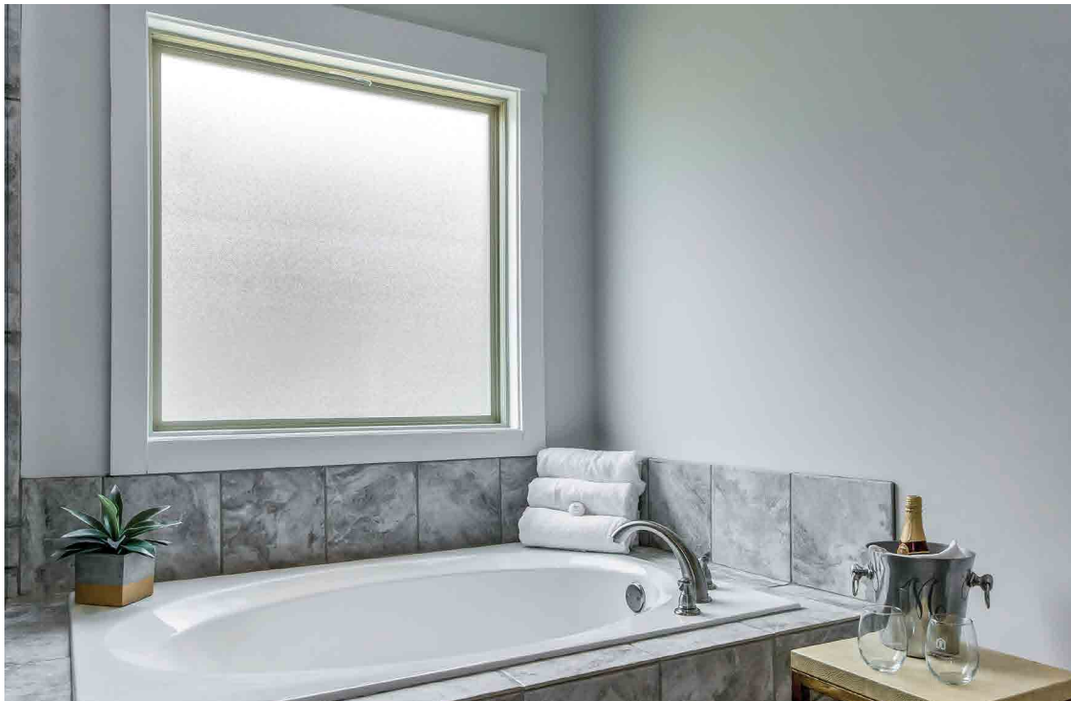
mathews
DEVELOPMENT COMPANY

YOUR FAMILY'S HOME IS OUR FAMILY BUSINESS



Jim Mathews has over 25 years of experience in the construction industry. He is a Graduate of Auburn University, a Certified Graduate Builder, and the 2015 President of the Greater Montgomery Homebuilders Association (GMHBA). He began his business building homes in Auburn in Moores Mill, Solamere, and Grove Hill neighborhoods.

In Montgomery he has built custom homes in Wynlakes, Breckenridge, Lochshire, New Park, and has current inventory in The Waters and Stone Park at Pike Road.

Jim takes great pride in a hands on approach to every aspect of the building process, with attention to detail, design and selections. He is especially gifted in his ability to listen to a client's needs and work with them to ensure that these features are included in their home while still maintaining their target budget.

> Mathew's Development was understanding and open minded with our home plans. Anytime we wanted to make changes they worked with us and honored our requests. We stayed updated with our construction and were provided access to our home during the building process to see how things were coming along. I would recommend Mathews Dev. to anyone looking to build their dream home.

Alpha Acme Electric, Inc.

Our goal is to provide superior customer service and affordability when it comes to electrical repairs and installations. We offer honest advice and fair prices. When you call, you'll get professional service with a personal touch.

Builders FirstSource

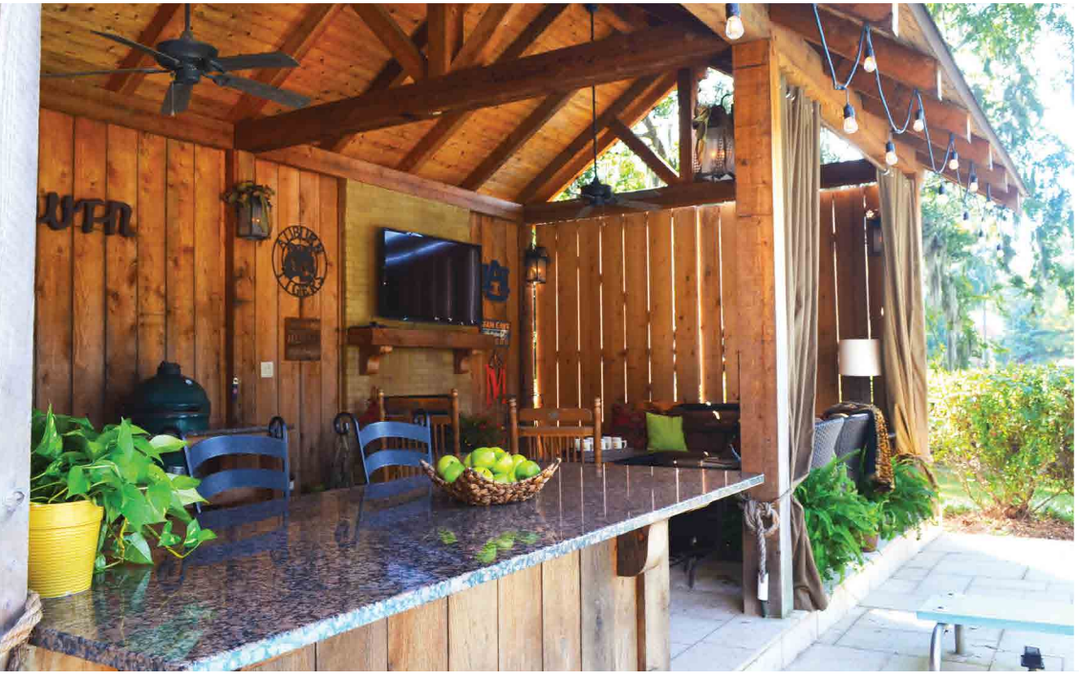
Builders FirstSource

First-Class Customer Service
Our goal is to provide outstanding products and services to every customer, regardless of size.

We are one of the nation's largest suppliers and manufacturers of building materials, pre-fabricated components, and construction.

We provide services to professional home builders, subcontractors, remodelers, and DIYs including:

Trusses • Framing • Doors • Windows • Trim • Roofing
Engineered Wood Products • Hardware • Insulation • Siding



A Few of The Many Reasons to Work with Builders FirstSource:

Products we carry are selected to meet the needs and preferences of the local market. Well trained and very knowledgeable about green building practices, we offer a broad range of products and ideas to assist you with your efforts to live healthy and help the future of our world. We partner with builders both big and small to help you throughout the construction cycle and to shorten the construction time to meet the increasing demand for new homes. By combining installation services and project management, we can provide you with a high-quality turn-key product that is on-time and on-budget.
